

**VII Summer School
“Achievements and Applications
of Contemporary Informatics,
Mathematics and Physics ”
(AACIMP – 2012)**

August 3—16, 2012, Kyiv (Ukraine)

<http://summerschool.ssa.org.ua>

Summer School “Achievements and applications of contemporary informatics, mathematics and physics”(AACIMP-2012) is an unique scientific-educational project, which has been successfully carried out for 7 years by Student Science Association of National Technical University of Ukraine “Kyiv Polytechnic Institute”. The 7th Summer School will be held on August 3—16, 2012 in Kyiv (Ukraine). Participation in Summer School is a wonderful opportunity to broaden your horizons, find out more about the latest achievements of science, contemporary high technologies, and topical questions of scientific and technical progress of a society.

■ **Educational program of AACIMP-2012.** The courses are presented in the form of lectures, seminars, workshops, discussions according to the topics of four areas (streams):

- **Operational Research** – Summer School students will get acquainted with advanced researches and breakthroughs in contemporary operational research.
- **Mobile Software Development** – participants of the stream will be working as a team for 2 weeks to create a cross-platform game that can be played both on iOS or Android devices, smartphones and tablets alike.
- **Neuroscience** – students of the stream will learn about the latest scientific achievements of distinguished world-known neuroscience specialists.
- **Advanced Energy** – this stream provides an insight into such subjects as renewable energy, fusion energy, nuclear energy, environmental technology, energy and physics, etc.

■ **Tutors of AACIMP-2012** are the scientists from well-known universities of Germany, France, Italy, Belgium, Sweden, Lithuania, Poland, Hungary, Ukraine, Russia, Turkey, USA and the leading specialists of world's largest companies. The participants of Summer School have the possibility to find out today what the rest of the world will know only tomorrow.

■ **Social events of AACIMP-2012.** If you want to discover something new, gain unforgettable memories, meet new people and learn more about culture, history of Ukraine and ancient Kyiv – join Summer School. Your staying in Kyiv during AACIMP will be fascinating and unforgettable.

■ **Who can apply:** students, PhD students, young scientists and young professionals

VII Summer School
“Achievements and Applications of Contemporary
Informatics, Mathematics and Physics”

August 3—16, 2012, Kyiv (Ukraine)

■ **Registration.** To participate you have to fill in an application form on the website of AACIMP-2012 (summerschool.ssa.org.ua). The decision on your acceptance will be made by the Program Committee within a month from a date of your registration.
