Revised Action Plan 2018 – 2021 within the HR Excellence in Research

| Action | Responsible Unit | Implementation indicator | Timing | Additional information |
|---|---|---|----------------------|--|
| A.1. Implementation of best practices in the recruitme | nt of researchers and | enhancing the competences of administr | rative staff | |
| A.1.1. Implementation of best practices in the recruitment of researchers – preparing a set of procedures and forms to handle the process and | Office of University Development and | A set of developed procedures | 07.2018 – | The action aims to create clear and transparent recruitment rules in the Lodz University of Technology as part of an open recruitment process. The sets of procedures and forms will be developed to facilitate the |
| monitoring the implementation (continuation of actions) | Human Resources | A set of developed forms | 06.2019 | actions of the recruitment commissions in the university's units to apply best practices and comply with the OTM-R principles. The application of prepared solutions will be monitored. |
| A.1.2. Counselling with regard to diagnosis of personality and competence predispositions of candidates through administrating competence and psychological tests | Department of Innovation and Cooperation with Business (Careers Service Office) | Launching the advice service programme for the recruitment of researchers | 05.2018 – 05.2021 | The action is aimed at supporting the activities of recruitment commissions in the university's units by a specialized central unit (Career Office) in the field of examining psychosocial competences of candidates |
| A.1.3. Creating recruitment paths for individual posts for academic teachers | Office of University Development and Human Resources | Developing procedures | 07.2018 – 06.2019 | The action aims to develop procedures that will determine formal employment and promotion career paths. |
| A.1.4. Introducing performance appraisals for | | Rector's directive on the system of periodic appraisals for Rector's administration staff | | The aim of the action is to assess the quality of work and |
| Rector's Administrative Offices staff in order to increase the competences of the administrative | Office of University Development and Human Resources | A pilot performance appraisal for administration employees | 05.2018 – 06.2020 | improve the competence of Rector's administration staff, thanks to which the quality of service and support offered to researchers will increase. |
| personnel, supporting the researchers | | The proper periodical performance appraisal of administrative staff has been carried out | | officied to researchers will increase. |

| Action | Responsible Unit | Implementation indicator | Timing | Additional information |
|---|--|---|----------------------|--|
| A.2. Encouraging mobility | | | | |
| A.2.1Preparing procedures for internships in scientific research units as a mobility encouraging instrument – implementation, promotion of the solution (continuation of actions) | Office of University Development and Human Resources | Trilateral agreement template (Lodz University of Technology - employee – enterprise providing internship opportunity) regulating terms and principles of industrial internships Procedure regulating industrial internships | 05.2018 – 06.2019 | The goal of the action is to create a mechanism that will facilitate undertaking research internships at science and research institutions by research and research and teaching staff. The resulting documentation will facilitate enhancement of their competences, knowledge and capacity to work in a diverse environment as well as conduct research of the highest standard. |
| A.2.2. Intensifying the University's efforts in appointing scholars for the position of visiting | Office of Scientific | The amount of funds allocated to acquire visiting professors Number of visiting professors employed | 05.2018 – | The goal of the action is to intensify efforts leading to the appointment of experienced scholars and renowned experts in their fields of specialization to work at Lodz University of Technology as visiting professors. Another |
| professor, monitoring the implementation of the process (continuation of actions) | Affairs | at the university | 05.2018 | goal of the action is to increase the pool of funds that will be used to maximize the number of visiting |
| process (continuation of actions) | | Evaluation of the action from the perspective of the researchers employed as visiting professor and from the perspective of the employing unit | | professors conducting research as well as participating in the process of research staff development (internationalization of research and teaching). |
| A.2.3. A platform for experience exchange – an instrument encouraging the implementation of best | Office of University Development and | Number of meetings aimed at exchanging best practices observed in other units | 01.2019 – | The action is aimed at dissemination and application of experiences, solutions and best practices learned by researchers thanks to various forms of mobility. |
| practices acquired by staff within various forms of mobility | Human Resources | A dedicated website | 12.2020 | Currently, employees' knowledge in this area is not fully used. |
| A.2.4. Webpage bookmark on www.p.lodz.pl for people from the outside of TUL, interested in short-term forms of scientific and didactic mobility at TUL | Office of Scientific Affairs | A dedicated website | 01.2019 – 07.2019 | The aim of the action is to establish one central contact point that will support short-term forms of research mobility at TUL and help researchers in establishing contacts with different university units. |

| Action | Responsible Unit | Implementation indicator | Timing | Additional information |
|--|--------------------------|--|-----------|--|
| A.3. Promotion and dissemination of research results | | | | |
| | | Number of followers of the TUL profile on LinkedIn and Research Gate | | |
| | | Number of followers of the TUL profile (Polish and English) on Facebook | | Due to the growing importance of social media, it is |
| A.3.1. Using social networking services to promote results of TUL's research and to establish research | Office of Communications | Number of followers of the TUL profile on Twitter | 06.2018 – | planned to further disseminate the information about Research Gate, LinkedIn among researchers at TUL, as well as the ability to run and use their own profiles to |
| cooperation (continuation of actions) | and Promotion | Number of followers of the TUL channel on YouTube | 05.2021 | connect research cooperation. As part of the information campaign, actions will be taken to promote the use of social networks in the work of the researcher. |
| | | Creation of the English version of the TUL's blog | | the use of social fletworks in the work of the researcher. |
| | | Number of people following the TUL's blog (in Polish and English version) | | |
| A.3.2. Creating a dedicated bookmark presenting scientific research and research cooperation on | Office of Communications | A central list of conferences and events | 06.2018 – | The aim of the action is to gather and rank all information about conferences and events organized at |
| www.p.lodz.pl | and Promotion | The number of published pieces of information about conferences and events | 06.2020 | TUL in one place. Currently, this information is dispersed. |
| A.3.3. Creating a dedicated bookmark presenting scientific research and research cooperation on | Office of Communications | A bookmark on the website presenting research and scientific cooperation | 01.2019 - | The actions aims to prepare a tool supporting dissemination of research conducted at the university |
| www.p.lodz.pl | and Promotion | Number of publications | 06.2020 | and at the same time will promote the international scientific cooperation of the university with other units. |

| Action | Responsible Unit | Implementation indicator | Timing | Additional information |
|--|---|--|----------------------|--|
| A.3.4. Launching a new science podcast on YouTube where TUL's researchers will be presenting | Office of Communications | A podcast channel | 10.2018 – | The goal of the action is to popularize science through presentation of scientific problems in an attractive form and conveying its tenets in an easy to follow way. Taking advantage of the Internet and the video-sharing website |
| technologies which are being prepared for implementation (continuation of actions) | and Promotion | Number of publications | 12.2020 | YouTube will allow to reach a large audience, especially, of young people who use these channels of communication on a daily basis. |
| A.3.5. Team of experts from the University's departments for contacts with the media | Office of Communications and Promotion | A database of experts for contact with the media | 01.2019 – 06.2019 | The aim of the action is to create a database of representatives from university units, who will constitute a team of experts available to assist the media from various areas of science |
| A.3.6. Individual websites for researchers willing to present their achievements and research on TUL's | Office of Communications | Individual website template | 07.2019 – | The aim is to prepare an easy-to-use tool that will allow researchers to create their own professional website |
| homepage www.p.lodz.pl | and Promotion | The number of individual researcher's websites | 12.2020 | presenting both the current achievements and research projects. |
| A.3.7 Training on research and scientific | Office of Communications | Number carried out of trainings | 01.2019 – | The action is aimed at training employees in the field of formulating the message, self-presentation and contacts |
| achievements popularization for researchers | and Promotion | Number of participants | 12.2019 | with the media |
| A.4. Career advice and support for young researchers | | | | |
| A.4.1. Implementation of a career service programme (continuation of actions) | Department of Innovation and Cooperation with Business (Careers Service Office) | The number of persons who have taken advantage of the programme. | 05.2018 – 05.2021 | Career advice, career coaching and career aptitude tests that allow to evaluate doctoral students' competences in the area of scientific and research career. The career service programme will be delivered by a professional career advisor employed by TUL's Careers Service Office |
| A.4.2. Individual support for young researchers applying for scientific and research grants | Projects Office | Support in the field of applying for research grants (individual advice) | 05.2018 – 05.2021 | The action aims to offer young researchers individual advice in the field of applying for grants. The adviser will support researchers at particular stages of application development and applying for funds. |

| Action | Responsible Unit | Implementation indicator | Timing | Additional information |
|--|--|---|----------------------|--|
| A.4.3. Supporting young researchers in building | Department of Innovation and Cooperation with | Number of trainings in building effective team cooperation | 05.2018 – | The action aims to offer support in developing soft skills, including individual and team work, time management |
| effective teamwork skills by implementation of team coaching programmes and trainings | Business (Careers Service Office) | Number of coaching sessions for researchers | 05.2021 | and coping with stress that are necessary to carry out research |
| A.4.4. Study visits in the industry | Department of Innovation and Cooperation with | Number of organized study visits in industry | 05.2018 – | The activity aims to familiarize participants with enterprises and projects implemented in the industry, |
| A.T.T. Study visits in the industry | Business (Careers Service Office) | The number of participants of study visits | 05.2021 | as well as work organization. Study visits will also allow cooperation between researchers and industry |
| A.5. Targeted training courses in commercialization an | d knowledge transfer a | and other forms of support within the sco | pe of cooperation | on with the industry |
| A.5.1. Targeted training courses in commercialization and knowledge transfer (continuation of actions) | Department of Innovation and Cooperation with Business (Technology Transfer Office) | Number of trainings in the field of commercialization, technology transfer and protection of intellectual property Number of training participants in the field of commercialization, technology transfer and intellectual property protection Number of individual consultations in the field of commercialization, technology | 06.2018 – 05.2021 | The aim of the action is to increase the competence and knowledge of employees in the field of technology commercialization, intellectual property protection and more effective cooperation between science and business. The action is particularly important due to the possibility of obtaining external financing (including EU funds), in which funds are directed to research projects implemented jointly by industry and researchers, and |
| | | transfer and protection of intellectual property | | the protection and management of research results must be strictly defined at the application stage. |
| A.5.2. A series of meetings and presentations in a form of trade fairs for the researchers to present their technology in order to start cooperation with the industry | Department of Innovation and Cooperation with Business (Technology Transfer Office) | Number of meetings and demonstrations in trade fair convention | 06.2018 – 05.2021 | The action aims to create opportunities for contact and cooperation between researchers and industry representatives. The activity is particularly important due to the possibility of obtaining external financing (including EU funds), in which funds are directed to research projects implemented jointly by industry and scientists, and the protection and management of research results must be strictly defined at the application stage. The action is particularly important due to the availability of financial resources thanks to many competitions in this area and EU priorities in the field of innovation. |

| Action | Responsible Unit | Implementation indicator | Timing | Additional information |
|--|---|---|-----------|--|
| A.5.3. Mandatory initial trainings in commercialization and knowledge transfer for the | Department of Innovation and Cooperation with | Developed program of compulsory training in the field of commercialization and knowledge transfer for new employees | 01.2019 – | The action aims to strengthen the awareness of the benefits of commercialization and knowledge transfer, |
| newly employed researchers | Business (Technology Transfer Office) | Number of new employees trained in the field of commercialization and knowledge transfer | 05.2021 | as well as the dangers associated with the loss of intellectual property rights. |
